

WHAT IS AGENDA 2030?

The 2030 Agenda, otherwise known as "Agenda 2030," is the updated name of the United Nations' program for so-called sustainable development. The UN defines "sustainable development" as:

"Development that meets the needs of the present without compromising the ability of future generations to meet their own needs."

Since the UN was founded in 1945, there have been those who wanted to see it become or pave the way for a one-world government.

Agenda 2030, which came out of the UN's Agenda 21 program, is the UN's official blueprint for micromanaging every aspect of human activity in its emerging one-world government, or "New World Order."

In the name of combating "climate change" and reducing greenhouse gas emissions, Agenda 2030 seeks to do the following (see inside):

All of this and much more underscores the need to *Get US Out!* of the United Nations.

Contact your U.S. representative and senators and urge them to support the passage of the American Sovereignty Restoration Act, until it is finally signed into law.

Ultimately, the battle to restore American liberty and independence requires a well-educated and activated electorate.

Join The John Birch Society to Stop Agenda 2030 and to *Get US Out!* of the United Nations. Visit JBS.org/Agenda2030/ for more information and resources.

HOW DOES AGENDA 2030

affect You?

The John Birch Society

YOU

AGENDA 2030 PROMOTES:

- Replacing national identity and patriotism with the concept of being a "global citizen"
- Behavior modification through "lifelong" indoctrination promoting sustainable development
- Reducing waste by cutting the amount of goods you are allowed to purchase and consume
- So-called "family planning" by combining sex education, contraception, and abortion to curtail global population growth

PRIVATE OWNERSHIP

AGENDA 2030 PROMOTES:

- Abolishing private ownership of property
- Government confiscation and nationalization of private land
- Forbidding human access to designated "wildlands," waterways, and other "protected" areas
- Banning or restricting certain firearms in an effort to make communities safe and to stop violence and crime

FREE MARKET

AGENDA 2030 PROMOTES:

- Coercing private investments to achieve sustainable development goals
- Banning or restricting nitrogen fertilizers, resulting in vast reduction of farms, less food production, soaring food prices, and eventual famine
- Imposing green or carbon taxes on goods and services to supposedly offset their environmental impact
- Requiring the manufacturing and use of expensive electric vehicles as gasoline and diesel is gradually made more expensive and phased out of use
